3 From: _____ To: _____															
4 From: _____ To: _____															
5 From: _____ To: _____															
Destination Airport:	Runway	Length		Runway	Length		Runway	Length		Runway	Length		Runway	Length	
ELEV:															

Note: This planning sheet is NOT to be used for real navigation. Two important columns have been omitted, the one for Compass Deviation and the one for the final, resultant Compass Heading. FS-98, FS2000 & FS2002 have no provision to add Compass Deviation, so these columns were left out.
